

POWERING TECHNOLOGY

Reliably powering your business.
Solving your power needs.

POWER SYSTEMS FOR EMERGENCY SERVICES

ABOUT UNIPOWER

UNIPOWER is a world leading provider of dependable high-efficiency power electronics and energy conversion systems and power supplies. UNIPOWER solutions include a complete line of high-efficiency rectifiers, inverters and DC power systems for mission critical applications. With over 25 years experience supporting customers in more than 60 countries, UNIPOWER is focused on bringing reliable power solutions to customers across all applications and environments.

Our Products

UNIPOWER's latest product offering includes a family of Best-in-Class rectifiers and network power products that achieve efficiency levels greater than 96%. Led by innovative design engineering groups, we are able to provide highly reliable standard products, innovative, robust custom products or modified standard products. Utilizing the latest topologies and digital expertise, we are prepared to meet your demanding custom requirements.

UNIPOWER PRODUCTS

Our Customers

UNIPOWER has an installed base of over 300,000 rectifiers and front-ends delivered to world-class companies in North America, South and Central America, Europe, Africa and Asia. Our customers deal with applications in Telecom, Cable, Power Utilities, Energy, and the Municipal market.

Our promise to you - "Quality Starts With Me"

UNIPOWER's mission is to provide superior service and superior designed, highly robust products for our customers in all markets. We know that understanding our customers means listening to their needs and designing a solution around them.

ASPIRO 2U
